

MAIN SANCTUARY - Nine windows were dismantled, restored, and reframed. The installation to the newly constructed worship space has provided a sense of continuity to the congregation.

CHAPEL - Twelve stained glass windows were removed from the old building and restored. New framing provides a practical adaptive use for these valued relics.

Faced with the challenge of moving to a new building, The First Presbyterian Church of DuPage turns to Tiffany Stained Glass, Ltd. To help rescue part of their heritage. Thirty-three stained glass windows were selected to become part of the new construction, joining a congregation's past with their future.
